

Aydin Alemohammad

Design Studio Portfolio

Innovative and emotionally driven interior designer with a degree in architecture and over 10 years of independent practice.

As the founder and creative director of her own studio in Tehran and Dubai, Aydin specializes in creating elegant, story-rich spaces that blend contemporary design with cultural depth.

Known for her sensitivity to material, light, and form, she turns every project into a distinct spatial narrative.

Nexx Clinic

Location: Dubai, UAE

Area: 200 Sq.m

Year: 2025

The interior design concept for this aesthetic clinic is based on creating a modern, minimal, and welcoming environment while maintaining the highest functional and hygienic standards.

A key principle of the design is to achieve minimal intervention in the existing structure, preserving as much of the original setting as possible while elevating it through refined materials and carefully curated details.

The chosen color palette revolves around nude and warm beige tones, providing a calm, timeless, and sophisticated backdrop. This neutral base enhances the minimalist furniture selections, which are sleek, functional, and unobtrusive, supporting the overall atmosphere of clarity and lightness.

The entrance acts as a grand yet inviting gesture, designed to create a sense of openness and hospitality. A curated selection of greenery and plants enhances the atmosphere, adding both freshness and a biophilic connection that aligns with well-being and beauty.

Beauty begins
the moment you decide to be yourself

To enrich the client experience, a small café bar is incorporated into the layout, offering refreshments and services for guests while they wait.

In terms of materials, the project utilizes microcement surfaces, providing a seamless, elegant, and hygienic finish that reflects both durability and aesthetic sophistication.

Alternative 2

The under-stair area is transformed into a distinct design feature that maximizes both functionality and aesthetics.

Through the integration of plants and greenery, the space becomes vibrant and alive, serving as a natural focal point. A dedicated product display stand is incorporated seamlessly into this composition, offering an elegant platform to showcase skincare or beauty items. This thoughtful combination of biophilic design and product presentation enriches the client experience while reinforcing the modern and minimal identity of the clinic.

The upper floor waiting area is designed as a serene and refined space, where soft nude tones dominate the palette. To complement this neutral backdrop, subtle green accents are introduced near the entrance doors, creating a refreshing contrast that enhances both elegance and tranquility.

The combination of warm minimalism and touches of greenery offers visitors a calming and uplifting waiting experience.

Beauty is A

Functional areas such as medical consultation rooms and dental treatment spaces are designed in full compliance with health and safety regulations, ensuring proper sterilization, and ergonomic planning.

Toronto Clinic

Location: Toronto, Canada

Area: 86 Sq.m

Year: 2023

The interior design of the *Toronto Skin Clinic* harmoniously blends wellness and minimalism, creating a serene environment tailored to both functionality and emotional comfort. The palette features soft earthy tones with accents of olive green and pale wood, fostering a sense of calm and purity. Architectural elements such as arched ceilings, diffused cove lighting, and translucent partitions give the space a fluid, organic rhythm.

Each treatment room is designed to feel private yet spacious, with thoughtful furniture selections that prioritize comfort and hygienic simplicity. The use of natural stone textures and subtle curves throughout reflects the clinic's holistic approach to beauty and skin health.
